**Providing safe, healthy and affordable food and products is fundamental to our purpose of helping people save money and live better**

Our efforts include policies, standards and practices that ensure the safety and quality of our assortment, while working together with our customers and industry partners to raise consumer awareness about health through good nutrition.

**Our variety of healthy and nutritious products continues to grow:**

Gluten-free

Sugar-free

Organic

Zero trans fats

Low in sodium

### Healthy Products

We offer Private Brands products with high added value that meet the needs of our customers. These products are in line with our global initiatives on regeneration, sustainability and food safety, among others.

Product categories focused on offering items tailored to meet the specific needs of our customers in terms of overweight, diabetes, celiac disease or general care, are carefully evaluated to ensure compliance with claims that adequately communicate their characteristics. These include low-fat, sugar-free, gluten-free and organic products.

Baby food products have no added sugar, starches or artificial ingredients. In this way, we offer early nourishment products that are 100% natural, sometimes supplemented or fortified, according to the infant's development stage.
